To: Applied Dynamics Corp.  
35 Butternut St.  
Greenfield MA. 01301

Dear Sir,

On behalf of everyone at Argotec, Inc we would like to say thank you for your effort. This project which was started several months ago is very close to completion. It's always a challenge to make an older machine run to the newer standers of today. We gave this challenge to you and you made it work.

Please past on to Bernie and Paul our appreciation for their quick response and their persistence with the handling of problems during start-up. Also the people at Canner Associates, Rob and Jeff made everything right by Danfoss.

We look forward to working with Applied on our next project, which has already started. Once again,  
Thank-You.

Sincerely,

*David Sechayewski*
